

Year 2

Maths

We will be learning about multiplication and division which will include recapping the 2, 5, 10 times tables whilst learning the 3 times tables.

We will then be learning about measuring length and height. The children will compare lengths, compare heights and learn about metric units such as centimetres

This half-term we are reading:

English

The first book we will be looking at is the Minpins by Road Dahl. We will be developing knowledge on nouns and adjectives also looking at how it is important to follow instructions. By the end of the book the children will be independently writing their own version of the story.

The second book is The Bear Under the Stairs by Helen Cooper. In these lessons we are looking at subordinate clause and conjunctions. This book links to our learning in science about habitats. The children will then be writing their own fact file about bears using the information they have learnt in the lessons

Spring 1

RE

This term we are widening our knowledge of the Jewish faith

We will learn about how Jewish people celebrate their faith and develop knowledge of the key festivals that are important to Jewish people: Rosh Hashanah, Sukkot, Hanukkah

Science

We are continuing to focus on living things and their habitats. This term there will be a specific learning about micro habitats.

Geography

In geography we are learning about cold places; specifically Antarctica and the Southern ocean. We will be finding out which animals live here and how they adapt to their environment.

Art /DT

We will be telling a story through drawing and painting.

Music

We will be taking part in an African drumming workshop.

Computing

We will be focussing on robot algorithms and widening our understanding of programming.

PE

In PE we will be looking at sending and receiving skills as well as developing our understanding of fitness.
