**Week 8 -
Perspective**

Week 8 was all about the technique of perspective drawing.

This is a tricky concept where you have to consider the size and shape of what you are drawing, depending on how close or far away it is.

I think this was one of the hardest tasks I have set so far and our ACE Art Clubbers have done an awesome job!

**I have been so impressed with
The quality of the entries this
week. They are fantastic.**

Come and see for yourself!
